EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sheridan Neimark on June 8, 2006.

The application has been amended as follows:

1) Cancel Claim 20.

The following is an examiner's statement of reasons for allowance:

A search of the prior art found no references teaching or suggesting the application of a layer of DNA probes to the semiconductor device set forth in Claim 1. Upon further consideration, the previously applied references rely on the principle of electric current flow through DNA molecules. The instant electronic DNA sensor relies on current flow through the semiconductor substrate with no charge transport by the DNA molecules. Thus, the references provide no motivation to apply DNA molecules to the instant semiconductor device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-19 are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher M. Babic whose telephone number is 571-272-8507. The examiner can normally be reached on Monday-Friday 7:00AM to 4:00PM.
